Bathtub design always makes me interesting and I believe that some people also feel the same way. Various bathtubs come with unpredictable shape and style which could fascinate anyone. I would like to show you an elegant bathtub which is made from wood. This fabulous wooden bathtub comes from a Swiss company – Bagno Sasso. The first collection is named Wave diamond which is presented in combination of wood and glass. This bathtub absolutely would bring a new sensation for your bathing experience. Transparent bathtub also gives a different touch for your [bathroom design](#). Another collection is presented in pure wood which is inspired by the luxury design of yacht. Since water becomes a great [stress relieve](#); this both bathtubs would provide you a perfect place for relaxing. See them [here](#).
