Bagno Sasso provides a large selection of contemporary [bath tubs](#). The tubs are made from materials such as wood and the designs are very detailed making them more distinct from most bath tubs. The designs have very organic looks resembling rocks, shells, and other parts of nature. The wooden tubs bring nature right into the contemporary bathrooms of homes, and have a very appealing look. The tubs comes a variety of unique patterns allowing the tubs to stand out.

Patterns on the tub may be quite simple or extremely detailed to suit personal preferences. The wooden tubs may easily become the focal point of any modern bathroom becoming a feast for the eyes.

The soft curvy structures of the tubs are very modern and elegant. Many of the tubs have become decors for luxurious spaces such as yachts, luxury apartments, honeymoon suites, and palaces. Some are even displayed in showrooms. For more information on tubs from Bagno Sasso please see [here](#).
